Color Hints:

## Elaboration:

Number of positive features: This value equals to the sum of all the green marked features for an item. For every product, there are some positive(marked green) and negative(marked green) and negative(marked qred) features. We summed up all the green marked features to calculate this value.

Rating frequencies: This value indicates how frequently a product is getting sold an a faster rate. All these data were collected on 22nd July, 2017.

Blank/white Boxes: The boxes that are white indicate that we didn't find mention of those features anywhere on the internet for those products when we conducted our research. We couldn't come to a conclusion about those features when we personally tested them as well. So we left them blank/white.

Price: Price on Amazon.com on 22nd July, 2017.

Average Rating: The average rating it has out of 5 on Amazon.com till 22nd July, 2017.

Total reviews: The total number of ratings/reviews it received on Amazon.com till 22nd July, 2017.

P.S. For some points where positive or negative cant be determined easily (for example rating frequency, price etc.), we took an average value and made everything that is equal or above that value green and anything lower than that red.
